Beyond the basics

Part of "Getting Started with Positron" workshop

Posit Software, PBC

Posit Assistant

Posit Assistant

Posit Assistant is a data analysis assistant that works across multiple environments — Positron and RStudio. It connects to your live R and Python sessions, sees your data, and helps you explore, visualize, build, and debug.

```
{
    "positron.assistant.enable": true,
    “assistant.sidebarView": true,
}
```

Demo

Folder workflow

- Create a new Positron project and conduct an analysis of a recent TidyTuesday dataset
- Chat interfsce, insertions, and inline completions

Wrap-up

Keeping up-to-date

- Positron will automatically update
  - Setting: *Update > Positron: Channel*
    - `prereleases`: ~ monthly, same version as on download page. Soon to be called `releases`
    - `dailies`: ~ every day, cutting edge

Getting help

- Positron Docs: https://positron.posit.co/
